Data requirements

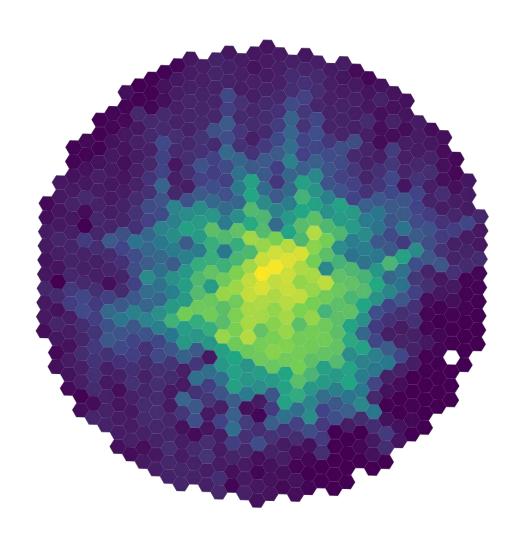

Data requirements:

- 1. Road network
- 2. Public transport network optional
- 3. Topography optional
- 4. Population
- 5. Land use

Good news!

There are open & globally available sources for most of these

OpenStreetMap

R packages

- {osmextract}
- {osmdata}

Websites

- Geofabrik
- HOT Export
- BBBike Extract Service

* saved in .pbf format

Public transport data

R packages

{tidytransit}

Websites

- Transitland
- TransitFeeds
- Mobility Database
- Government open data websites

e.g. Canadian Public Transit Network Database

^{*} saved in **GTFS.zip** format

Topography

R packages

- {elevatr}
- {osmdata}

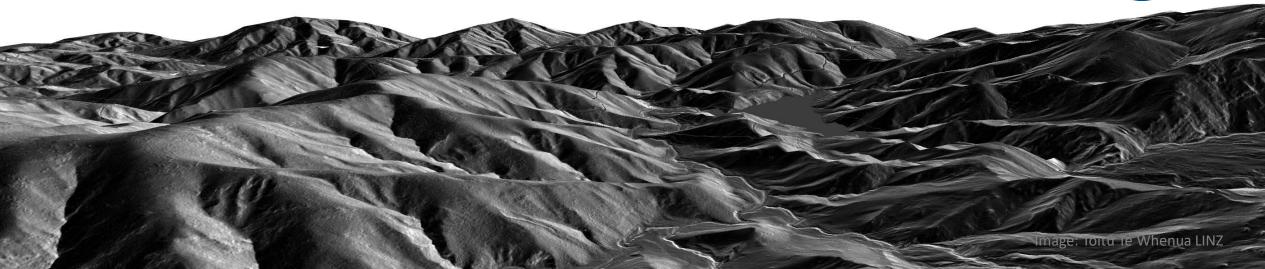

Websites

- Nasa's SRTMGL1
- NASADEM

* Raster data saved in .tif format

30m: Shuttle Radar Topography Mission

Population estimates

National population censuses Gridded population estimates

- 1Km: GPW4 / Sedac

- 100m - 1Km: WorldPop

- 100m and 1Km: GHSL / European commission

- 30m: Meta Data for Good

* Some spatial aggregation

Land use data

Scattered source:

- Household (travel) surveys
- Administrative records
- OpenStreetMap (caution)

R packages

- Canada {cancensus} and {canadamaps}
- Brazil {censobr} and {aopdata}

A crash course on Urban accessibility with R
